Description

Transit is your real-time urban travel companion. Open the app to instantly see accurate next departure times, track buses and trains near you on the map, and see upcoming transit schedules. Use the trip planner to quickly compare trips - including options like bus and bike, or metro and subway. Get alerted about service disruptions and delays for your favorite lines, and save frequently used locations for trip directions in a tap.

HERE'S WHAT THEY'RE SAYING
"Gives you the best route to where you want to go" - New York Times
"You won't realize how much time you can save planning until you use this app" - LA Times
"Killer app" - Wall Street Journal
"MBTA has a favorite transit app — and it's called Transit" - Boston Globe
"A one-stop-shop" - Washington Post

 6 GREAT THINGS ABOUT TRANSIT:

1) The best real-time data.
The app uses the best transit agency data sources like MTA Bus Time, MTA Train Time, NJ Transit MyBus, SF MUNI Next Bus, CTA Bus Tracker, WMATA Next Arrivals, SEPTA Real-Time and many more. We combine that data with our fancy ETA prediction engine so that you get the most accurate real-time info possible for all transit modes - including buses, subways, trains, streetcars, metros, ferries, ridehail and more. Prefer to travel on two wheels? With GPS, you can see live bikeshare and scooter locations right on the map.

2) Travel offline
Bus schedules, stop locations, subway maps and even our trip planner are available offline.

3) Powerful trip planning
See fast and easy trips combining buses, subways and trains – the app even suggests routes that combine multiple options in one trip like bus + bike or scooter + metro. You'll find great trip plans that you never even considered! Don't like to walk a lot or use a certain mode or transit agency? Personalize your travel in the settings.

4) GO: our step-by-step navigator*
Receive departure alarms to catch your bus or train, and get alerted when it's time to get off or transfer. When using GO, you'll also crowdsource more accurate info and real-time ETAs for other passengers– and rack up points and thank yous for being the most helpful rider on your line.

5) User Reports
See what other riders have to say! With millions of users contributing, you'll get helpful info on crowding levels, on-time performance, the closest subway exits, and more.

6) Easy Payments
Pay your transit fare and buy bikeshare passes directly in the app in over 75 cities.

900+ CITIES INCLUDING:

Atlanta, Austin, Baltimore, Boston, Buffalo, Charlotte, Chicago, Cincinnati, Cleveland, Columbus, Dallas, Denver, Detroit, Hartford, Honolulu, Houston, Kansas City, Las Vegas, Los Angeles, Louisville, Madison, Miami, Milwaukee, Minneapolis, Nashville, New Orleans, New York City, Orlando, Philadelphia, Phoenix, Pittsburgh, Providence, Portland, Sacramento, Salt Lake City, San Antonio, San Diego, San Francisco, St. Louis, Tampa,

```
Washington D.C.

1000+ PUBLIC TRANSIT AGENCIES INCLUDING:

AC Transit, Atlanta Streetcar (MARTA), Bee-Line, Big Blue Bus, Caltrain, Cap Metro, CATS, CDTA, CTA, CT Transit, DART, DC Metro (WMATA), DDOT,
GCRTA, HART, Houston Metro, KCATA, King County Metro Transit, LA DOT, LA Metro, LBT, LIRR, Lynx, MCTS, MDOT MTA, Metra, Metrolink, MetroNorth,
Miami Dade Transit, MTA BUS, NCTD, New Jersey Transit (NJT), NFTA, NICE, NYC MTA Subway, OCTA, PACE, Pittsburgh Regional Transit (PRT), Ride-On,
RTD, SEPTA, SF BART, SF Muni, Sound Transit, SORTA (Metro), St. Louis Metro, TANK, TheBus, Tri-Met, UTA, Valley Metro, VIA

☰ APPLICATION PERMISSIONS

Search:

PERMISSION	STATUS	INFO	DESCRIPTION	CODE MAPPINGS
.permission.MAPS_RECEIVE	unknown	Unknown permission	Unknown permission from android reference	

PERMISSION	STATUS	INFO	DESCRIPTION	CODE MAPPINGS
android.permission.ACCESS_COARSE_LOCATION	dangerous	coarse (network-based) location	Access coarse location sources, such as the mobile network database, to determine an approximate phone location, where available. Malicious applications can use this to determine approximately where you are.	
android.permission.ACCESS_FINE_LOCATION	dangerous	fine (GPS) location	Access fine location sources, such as the Global Positioning System on the phone, where available. Malicious applications can use this to determine where you are and may consume additional battery power.	
android.permission.ACCESS_NETWORK_STATE	normal	view network status	Allows an application to view the status of all networks.	
android.permission.BLUETOOTH	normal	create Bluetooth connections	Allows applications to connect to paired bluetooth devices.	
android.permission.CAMERA	dangerous	take pictures and videos	Allows application to take pictures and videos with the camera. This allows the application to collect images that the camera is seeing at any time.	
android.permission.FOREGROUND_SERVICE	normal	enables regular apps to use Service.startForeground.	Allows a regular application to use Service.startForeground.	
android.permission.FOREGROUND_SERVICE_LOCATION	normal	allows foreground services with location use.	Allows a regular application to use Service.startForeground with the type "location".	

PERMISSION	STATUS	INFO	DESCRIPTION	CODE MAPPINGS
android.permission.INTERNET	normal	full Internet access	Allows an application to create network sockets.	
android.permission.MODIFY_AUDIO_SETTINGS	normal	change your audio settings	Allows application to modify global audio settings, such as volume and routing.
